# The essence of home automation

Home automation should be simple and add comfort to the complexity of the modern home.

Home automation systems are often designed from a technical point of view, while we believe that one should be able to control everything in an intuitive and simple way.

Technology in the modern home is evolving more rapidly than ever, creating enormous possibilities. However, this can lead to systems that are complicated. Too complicated.

We want to keep things simple, intuitive and elegant, both in its form and in its function.

Sentido and Deseo are highly innovative keypads with a minimalist European design, bringing home automation control to a new era. Use Sentido to control lights & screens and complement it with Deseo to control Crestron® and Lutron® HVAC systems. Both keypads are touch-sensitive, creating a unique way of control and an unequalled haptic experience.

Auro is a flat motion sensor: fast and almost invisible.

# sentido \_\_\_\_\_

the light switch reinvented

The basic idea of Sentido is very simple, yet very innovative.

Divide a square in equal surfaces that each control different functions. The entire surface is touch-sensitive, creating a very easy and unique way of control.

Touching more than one surface at the same time turns on and off all the lights in a room using a general scene. This multi-touch function makes light control highly intuitive and user friendly.

Optionally, up to four additional scenes can be selected by holding the multi-touch for a longer period, which activates the unique scene sequencer.

The internal temperature sensor discretely reports the room temperature to the home automation system.

The multicolor LED backlight can be used for status feedback or simply to light up Sentido in the dark.

The entire switch is touch-sensitive, creating a unique way of control and an unequalled haptic experience for your Lutron® or Crestron® home automation system.

## aluminum

Aluminum is a light, strong material. Its sleek look appeals to the most contemporary designers, while the black & white finish blend in any style. Pure Belgian-made quality, right at your fingertips.

4-way

0202-01 brushed aluminum

0202-02 brushed dark grey

0202-03 brushed black

0202-04 satin white

2-way

0201-01 brushed aluminum

0201-02 brushed dark grey

0201-03 brushed black

0201-04 satin white

- 4 single touch surfaces \* or 2 single touch surfaces \*
- 1 multi-touch \*\*
- integrated scene sequencer
- multicolor LED backlight
- temperature sensor
- dimensions: 3.15" x 3.15" x 0.31"
- combined with Sentido switch – RS485 (0200-01) or Cresnet (0200-03)
- requires European wall box - Ø 68 mm/2.68" (0090-01)
- custom engraving possible

## enzo \_\_\_\_\_

Inspired by Italian design of the late fifties, Enzo combines retro with luxury based on craftsmanship and high-quality materials.

The fine rounded border is made of polished aluminum while the inlay can be leather or glass.

Despite its retro look, Enzo uses the latest technology and features highly sensitive touch sensors and multi-touch capability.

Enzo offers the same unique and innovative functionalities as Sentido.

The integrated multicolor LED backlight makes Enzo visible in the dark and can also be used for status feedback.

## enzo collection

---

The Enzo finishes distinguish themselves as the retro alternative for black or white, introducing rounded edges with a high-quality inlay of leather or glass. The finishing touch to your interior never looked this good before.

# deseo

intelligent HVAC control

Deseo is a beautiful and intelligent HVAC control panel with touch-sensitive sensors. It offers a simple and innovative user interface for your Lutron® & Creston® HVAC system and lets you easily control the lights in the room.

In standby, Deseo shows the current temperature and time. Touch the upper and lower surface to raise or lower your temperature set point. Touch left and right to change fan speed and mode. With multi-touch, you can quickly turn the lights on and off, using a welcome and goodbye scene.

Thanks to its various elegant finishes in high-grade materials, Deseo nicely blends in every interior. Deseo integrates with Lutron® HomeWorks QS® & Creston® control systems.

- touch controlled menu \*
- 1 multi-touch functionality \*\*
- 1.7" oled display
- integrated temperature sensor
- dimensions: 3.15" x 3.15" x 0.31"
- combined with Deseo switch – RS485 (0310-01)
- combined with Deseo HVAC controller - Cresnet (0310-03)
- requires European wall box - Ø 68 mm/2.68" (0090-01)

## flush mount —

In some projects, the architect or client aims for a sleek, minimalist design. To attend their needs, Basalte developed a flush mount kit that allows to integrate our keypads flush with the drywall. The kit securely mounts the devices, but still allows easy access, insertion and removal.

\* the mount is applicable for all Sentido and Deseo finishes.  
Enzo and Deseo retro finishes are not compatible.

## Serial.link \_\_\_\_\_

The Basalte Serial.link is a control interface that is used to connect Basalte RS485 devices with the home automation processor.

Serial.link supports a total of 6x RS485 lines with a maximum of 32 devices per line and requires a power supply of 24V DC.

Serial.link integrates Sentido / Enzo / Deseo / Auro with Lutron® HomeWorks QS® & Crestron® systems over IP.

---

## auro motion sensor

Auro is everything a motion sensor should be: small, fast and almost invisible. When mounted in the ceiling, the innovative flat design makes Auro completely blend in. Only requiring an opening of 1.7", it is very easy to install.

Auro has a built-in light sensor to use for light dependent switching, dimming and controlling scenes.

The internal temperature sensor discretely reports the room temperature to the home automation system while it can also be used to trigger a heat alarm in case of an abnormal temperature rise.

With a vertical detection angle of 90° it has a detection area with a diameter of 16 ft when installed at a height of 8 ft, making it perfect for hallways, toilets and small rooms.

Auro integrates with Crestron® and Lutron® HomeWorks QS® systems.
